Tribute Page - [Project Page](#)

Include a header and image.
Include a link somewhere on the page that leads to an external page with more information on the item in question.

must include at least 1 of each of the following items:

X   H tag
X   P tags
X   UL or OL lists
X   IMG tag
X   A tag

Additional Challenges

❏   All tags should have at least one class.
❏   Use an ID to overwrite the class given to a tag if it needs it's own styling.

Bootstrap is not required.

BootStrap challenges

If bootstrap is used you must do the following:
❏   Override some of the bootstrap css in order to personalize the page. DO NOT leave 100% pure bootstrap on your page. This can include different fonts colors padding Etc.
❏   Use the Grid system. Use the grid system in some way. Be creative.

non Bootstrap Challenges

Use Css to organize and shape the page. You should use the following css elements at some point:

X   Padding
X   Margin
X   Font-size
X   Font-family
X   Color
X   Background-color
❏   **BONUS CSS Elements:**
      ❏   Float
      ❏   :hover
      ❏   font-weight

Additional challenge

- ❏ **Include an inactive form that does not submit information form should include minimum**
  - ❏ 1 input element
  - ❏ 1 submit button

Hacker challenges - you will need to research other information to do these

- ❏ Use bootstrap's carousel system.
- ❏ Use jquery to implement some interactive capability
- ❏ Use bootstrap to include some sort of dropdown/hide mechanic
- ❏ Create a css animation or a unique CSS styling
- ❏ Create a second page for the site that includes details about a specific feature or event for the item in question. This second page should have a similar overall feel but it's own unique layout.
